Figure 1: Schematic representation of the experimental design. The figure is divided into two main sections: 'Pretest' and 'Main Experiment'. The 'Pretest' section includes 'Pretest 1' (N=10) and 'Pretest 2' (N=10). The 'Main Experiment' section includes 'Main Experiment 1' (N=20) and 'Main Experiment 2' (N=20). Each section shows a sequence of events: 'Stimulus presentation', 'Response', and 'Feedback'. The 'Pretest' section shows a sequence of 'Stimulus presentation' and 'Response' events, while the 'Main Experiment' section shows a sequence of 'Stimulus presentation', 'Response', and 'Feedback' events. The 'Main Experiment' section also includes a 'Posttest' (N=20) section.

3. The third part of the document is a footer section containing the following information:

[The following pages contain extremely faint, illegible text, likely bleed-through from the reverse side of the document.]

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

[The following section contains several lines of extremely faint, illegible text, likely bleed-through from the reverse side of the page.]
